Emergency Management Committee Report
April 18, 2011

As a result of the hurricane seasons of 2004 and 2005, the Florida Chapter formed the emergency management committee to maintain a line of communication between the Florida Chapter and the branches, as it relates to training in the Incident Command System and other requirements of FEMA and Homeland Security. And when necessary, the committee would act as another communication link for the counties and municipalities in their time of need.
