Project Spotlight

We are requesting information on projects you are working on that we can spotlight in the newsletter or the Florida Reporter magazine.

The City of Port St. Lucie received a grant from the Florida Department of Economic Opportunity to help fund design, engineering, permitting, and site plan services for the southern extension of the Riverwalk boardwalk and the development of nearly 10 acres located adjacent to the river. Design elements include a historic village, waterfront dining, open pavilions, children’s playground, and the extension of the Riverwalk boardwalk.

The City also received a Special Category Grant from the Florida Department of State, Division of Historic Resources for the relocation of two historic structures. The structures are a house built in 1917 (Peacock House) and a lodge (Peacock Lodge) built in 1952. Following relocation, the restoration of the Peacock House and Lodge will take place over a period of several years. The structures will be restored to provide a picture into old Florida living in the last century.
