Water Treatment Plant Operations “C”
August 20 — December 18, 2012
(an evening and weekend program)

What is in your future?
Are you ready for an exciting new career?

In Florida, water treatment management is a critical career due to our growing population and scarcity of resources. Be a positive influence on our environment while providing clean drinking water to communities in our area.

The Water Treatment Technologies program is designed to prepare you for the state license exam to be a water treatment plant operator. Classes meet two evenings a week from 6:00 p.m. to 9:00 p.m. and two Saturdays a month from 9:00 a.m. to 3:00 p.m. Ask our SCTI counselors for a class schedule. Eligibility requirements are 18 years of age or older and high school diploma or equivalency.

Our students benefit from the wide range of water treatment plants operating in our area. You will learn from these variations of plant sizes and processes.

Make your appointment with a Guidance Counselor, 941-924-1365, ext. 62283, (appointment is required) or email Bob_Koch@sarasota.k12.fl.us. Enrollment application form should be completed by June 6 with $45 fee. Guidance summer office hours are Monday—Wednesday, 7:30am—6:00pm, Thursday, 7:30am—3:30pm.

Don’t waste another day - call now.
